STEP 1 - KNOW YOUR PURPOSE

So you want to run your own business? - but you're not quite sure what type of business you want to run. Well let us begin with your passion?

What would you spend 18 hours a day working on?

What would you do, even if you never got paid for it?

What skills do you have or need to develop your passion?

These are some of the key questions you will need to ask yourself and it may take some time before you can find a definitive answer.

Purpose or 'your reason for being' may not be a question you have considered before and this may have blocked you from pursuing your purpose. A life without purpose is like a ship without a rudder and we can drift along aimlessly. Sadly, we can even talk ourselves out of what we want and need to do.

We would like to encourage you to consider the main things that will give you focus using the 3 questions above and then start a process by elimination to discover which business idea will be profitable for you. This may take several reiterations, but may we congratulate you on your first steps towards living the life you were designed to live.
